

Rushabh Patel

Toronto, ON | 506-271-2444 | rushabhpatel212@gmail.com

Profile

I have expertise in creating brand-new responsive websites for many platforms using HTML5, CSS3, and JavaScript. I am very motivated and detail-oriented. I have practical experience building application-level code to deal with APIs and a solid understanding of the Software Development Life Cycle and Agile Methodology. I have exceptional problem-solving abilities, and the capacity to resolve client disputes and accurately manage crisis situations in accordance with corporate policies and procedures. I am well-organized and have good time management abilities. I can prioritize my tasks and operate under pressure in a demanding setting while still meeting deadlines.

Experience

Panchvati:- As a Floor Assistant from September 2022- Present.
